OUR THEME

AGENTS OF CHANGE

The Recorders have helped change the way of doing business. We seamlessly made it through the pandemic adapting daily. We have fought tirelessly at the state house to better our offices and stand up against legislature that would hurt our offices. We stepped up to the plate when E-Recording became a normal and pushed for the other departments to join us. I'm very proud to call myself a Recorder because of the 91 others around me. I'm even more honored to be voted in as the IRA President. I can't wait to see everyone.
